## NIA CARAGA 26th FOUNDING ANNIVERSARY CELEBRATION

**T**he National Irrigation Administration Caraga celebrates its 26th Founding Anniversary at NIA Compound Bancasi, Butuan City with a two-day lined up activities on September 8 to 9, 2022.

The celebration started with a thanksgiving mass and blessing of the two newest facilities, car wash building and material testing laboratory. Program proper followed and the official opening of the sports fest participated by NIA regional and provincial employees.

Present during the activities are NIA Administrator, Benny A. Antiporda, Department of Agriculture, NIA Caraga Regional Manager, Engr. June Nathaniel S. Plaza, NIA Consultant Jam Magno, Philippine Information Agency (PIA) Caraga, NIA provincial heads and personnel and media partners. Day 1 will conclude with a fellowship night. The second day will be the sports fest proper and awarding of winners. *By: PIA Caraga*

# Visual Graphics Design Workshop

**NIA** Caraga successfully conducted a two-day seminar workshop on Computer Literacy and Visual Graphic and Design presented by computer expert from ACLC Butuan City Mr. Joel C. Trillo to 60 participants from NIA Caraga last July 4-5, 2022 at Pavilion Watergate Hotel Butuan City to revisit and enhance more the knowledge of the NIA personnel regarding the basic and technical computer application.

# ConflictManagement SEMINAR WORKSHOP

As part of the agency's commitment to address the competency gap, Day-1 of the Seminar Workshop in Conflict Management was conducted last July 18, 2022 at Pavilion, Watergate, Butuan City through the subject matter specialist resource speaker Ms. Evangeline B. Golindang, OIC-Director II from the Civil Service Field Office, Province of Agusan del Sur.

During his speech, Regional Manager June Nathaniel S. Plaza stated that differences in behavior are the main reason why we get into conflict with others. There are people who are difficult to deal with. Conflict is inevitable, which is why we need to manage it and know different techniques for resolving it.

The activity was attended by 31 participants and aimed to develop their skills in resolving and managing conflict in the workplace.

# HYDROPONICS:

## A New Way to Become Self-Sufficient

With the world's population growing, individuals are looking for solutions to combat hunger and become self-sufficient. The best option to address the issue is venturing new technique in planting.

The National Irrigation Administration has designated the greenhouse as an Irrigators' Association (IA) Model Farm. It is provided to the IA as a reward for the associations with the highest functionality rating across the country. Hydroponics is the ideal approach for a greenhouse; it can enhance production 3 to 10 times in a small space.

The NIA's front-line personnel should learn about hydroponics and its practices in order to aid our farmers with implementation. To help them attune this knowledge, the NIA Caraga conducted a 2-day seminar, facilitated by the Regional Office Institutional Development Unit with the help of the resource speaker, Estelito C. Bebit, Jr, Organic Agri Production NC II Adviser. The seminar was held at the Pavilion, Watergate Hotel, Butuan City on August 22-23, 2022.

# NIA CARAGA

## HAS BEEN ISSUED OF GOVERNMENT GUARD LICENSE!

**PCOL** Rogelio L. Abran, Jr., Chief of Regional Civil Security Unit (RCSU) 13, attended the flag ceremony and turned over Government Guard License to the Industrial Security Guards (ISG) of NIA Caraga.

The RCSU is a unit of the PNP that supervises the licensing and registration of firearms and explosives. The unit also regulates the operations and activities of all organized private detectives, watchmen, security guards/agencies, and company guard forces.

According to PCOL Abran, Jr., only three (3) government agencies in the Caraga Region has been issued with Government Guard License. Among the three, NIA Caraga Region is one of the government agency in the Caraga Region which was issued with Government Guard License.

Regional Manager June Nathaniel S. Plaza stated that transparency will be the finest instrument under his leadership to ensure that NIA Caraga Region will meet the standard (security) and that our security licenses and firearms are processed legally.

# PROBLEMA NG MAGSASAKA, DININIG NG AHENSYA!

**M**asayang-masaya ang mga magsasaka na kasapi ng Caraga Region Irrigation Federation (CRIF) dahil napakinggan ng Punong Tagapangasiwa ng National Irrigation Administration (NIA) na si Administrator Benny D. Antiporda ang kanilang mga suliranin at iba pang layunin sa pagdalo sa nasabing pagpupulong.

Ayon kay Administrator Antiporda, hindi siya mangangako ngunit susubukan niyang lutasin ang mga ito. Bigyan lamang natin siya ng panahon. Nararapat lamang na tayo ay magtulung-tulong upang maisakatuparan ang mga ito.

Dagdag pa ni Administrator, siya mismo ang pupunta upang personal na makatulong sa ating mga magsasaka. Higit na kilala bilang Action Man ng NIA, ang lahat ng ito ay iilan lamang sa mga patunay ng kanyang mahusay at tapat na paglilingkod para sa ating mga bayaning magsasaka at para sa bayan.

# BLESSING OF MATERIAL TESTING LABORATORY AND NIA CARWASH BAY

**A**dministrator Benny D. Antiporda serves as the Guest of Honor and Speaker for the 26th Founding Anniversary Celebration of NIA Caraga Regional Office at NIA Caraga Compound, Bancasi, Butuan City.

One of the highlights of the anniversary celebration is the Blessing of Material Testing Laboratory and NIA Carwash Bay. The establishment of laboratory for sampling and testing of materials are necessary to implement required laboratory and field tests needed in construction materials, to apply proper materials quality control measures/policies in the project implementation, to monitor material quality control during project implementation until its completion, and to recommend and apply remedial measures/solutions to challenges encountered during project implementation.

All of these are geared towards the provision of efficient irrigation service to the Filipino people, especially, our farmers.
